

Responding to school bullying

In 2009 I worked with Education Queensland to produce a series of vodcasts and associated resources for teacher

They can be accessed through:

<http://education.qld.gov.au/studentservices/protection/community/bullying.html>

Together they provide information, instruction and an exploration of issues that are of interest to teachers in addressing the problem of bullying in schools.

Each of 6 vodcasts deals with a specific issue. These are:

Vodcast 1: The nature of bullying and how schools can respond

Vodcast 2: Addressing bullying in schools

Vodcast 3: Interventions in cases of bullying

Vodcast 4: Three more ways of intervening

Vodcast 5: Working with groups of students involved in bullying

Vodcast 6: Issues with parents and evaluating anti-bullying work

This material, as provided through Education Queensland, can be used as a basis for the professional development of teachers in countering school bullying.
